

4345 Misc. Details

MISC NOTES:

CABINET TOP/SIDES/BOTTOM ARE 1" PARTICLE BOARD. THE TWO PAIRS OF CABINETS I HAVE MEASURED WERE ACTUALLY 1 1/6" P.B. THIS MATERIAL WILL BE VERY DIFFICULT TO LOCATE. 1" P.B. IS READILY AVAILABLE. FACTORY CABINETS ACTUALLY MEASURE 30 1/8" W x 41 1/8" H.

NOT INCLUDED IN THESE DRAWINGS IS THE METAL SUPPORT BRACKET THAT SUPPORTS THE 2421B OR 2425J MID RANGE DRIVER. THIS BRACKET IS BOLTED BETWEEN THE 2307/2421B AND THE BACK OF THE MID-BASE BOX. I FAILED TO MEASURE THIS BRACKET SO I CANNOT INCLUDE THAT INFO. IF SOMEONE CAN GET ME THE DIMENSIONS I WILL ADD IT TO THE DRAWING PACKAGE.
